

FACT SHEET

The Soul Vibe Events Collective Pop-up Shop is a unique opportunity for businesses to sell and/or promote your products and/or services in an established Shopping Centre without the ongoing costs of the overheads associated with leasing your own shop.

Other benefits of being part of the SVE Collective is working collaboratively with a bunch of like-minded product & service driven individuals. Conducting business in a retail environment also generally means good retail foot traffic and a mixed demographic of customers. This is really a great promotional opportunity especially for local businesses – helping you raise awareness of your brand, products and services.

STALLHOLDERS

We are looking for enthusiastic stallholders to join us for our 'SVE Collective Pop-up Shop!'
